DR. RAYMOND A. PEARSON

GREETINGS FROM PRESIDENT PEARSON

Dear Friends:

This letter is to extend greetings to new students and to say to old students "we are glad to see you back again."

All students, old and new, know that things are far different these days than they were only a few years ago. You will agree with me and with the faculty that a university training ought to be a definite benefit to those who get it. We know that the world needs knowledge and understanding, sympathy, kindness, and helpfulness. Every one of these virtues should be strengthened by our mutual efforts in the year now beginning. I earnestly wish that every student, and every teacher too, would seriously consider from time to time how he or she is progressing in these desirable ways.

My best advice to new students is to keep your work up to date. Do not let diversions enter when work needs to be done, except such as are necessary for needed relaxation and exercise. Most of the failures in college are due to the fact that work which should be done today is postponed until tomorrow, and then again until the next day.

Some of the new students at times may be discouraged, perhaps homesick, but when this happens, remember the thousands who have preceded you and who have won against such discouragements. Have confidence in yourself. Select your friends with care and try to find those who will help you. Get acquainted with your teachers. Remember your religious training. Let the local pastors be your friends. And remember that the undersigned and hundreds of others will be glad to give help if only we may know when and where it is needed.

With best wishes for each one in this new college year, I am

Very truly yours,

R. A. PEARSON, President.

DEAN ADELE STAMP

GREETINGS FROM THE DEAN OF WOMEN

To old and new students, greetings and cordial welcome.

You are beginning another year of your school life—make it count and get all that you can from it. In order to do this, give your best efforts in all that you undertake and do not undertake too much or too little. Enter into extra-curricular activities but do not try to join all. It is better to select a few and give your best to those than to choose many and give little.

We hope every year you spend here will add to your ability to live a richer and fuller life, and that you will always retain most pleasant memories of your days on this campus.

Sincerely yours,

ADELE H. STAMP,
Dean of Women.

HISTORY

Perhaps the best and most graphic illustration of the remarkable progress the University of Maryland has made since its founding in 1807 is found on the College Park campus in the old Mechanical Engineering Building, the first building in the State devoted to the teaching of engineering. Erected in 1895, this building today forms a section only of the Engineering group, which includes a small auditorium, seating 250 persons, with other buildings to house electrical engineering, civil and mechanical engineering, their laboratories and equipment, and with the original building housing only a shop, and a few classrooms. The advances made since its construction in 1895 are commensurate with the progress of the entire University.

The present University of Maryland was, originally, two separate institutions, the University of Maryland, founded in 1807 under the name of the College of Medicine of Maryland, and the Maryland State College, founded in 1856 at College Park as the Maryland Agricultural College.

The College of Medicine of Maryland was first located at Lombard and Greene Streets, in Baltimore, and the building which was erected to house it in 1814-15 is the oldest structure in America devoted to the teaching of medicine.

In 1812, the General Assembly of Maryland authorized the College of Medicine of Maryland to "annex or constitute faculties of divinity, law, and arts and sciences," these to form an institution to be known as the University of Maryland. In 1813, a move was made to establish the "faculty of law," and, in 1823, a school of law was opened. Subsequently, a College of Dentistry, a School of Pharmacy, and a School of Nursing were added. The first-named is the oldest Dental College in the world.

In 1856 was established the Maryland Agricultural College, which later became the Land Grant College of Maryland. It was conducted for a number of years as a private institution, but financial disasters and the general depression which followed the Civil War made it necessary for the College to appeal to the State Legislature in 1866 for assistance. In 1916 a new charter was granted to it as Maryland State College and the State took complete control. An act of the Legislature in 1920 united the old University of Maryland with the Maryland State College, to form the present University of Maryland with branches in Baltimore and College Park.

Five new buildings have been erected within the past three years and two more are now under construction. Enrollment since 1912 has jumped from 130 to 2,000.

Increased facilities are likewise noted in Baltimore, with a splendid new $1,500,000 hospital is nearing completion, a new law building opened a year ago, and a new dentistry and pharmacy building but recently put into use. Enrollment in the Baltimore branch of the University averages about 1,500.

THE UNIVERSITY AND STUDENT ACTIVITIES

Student activities in the University are not actually regulated, but the student organizations are responsible to a faculty committee for any action that might reflect on the institution. This body, the Student Relations Committee, rules on matters affecting the general welfare of the students and their Alma Mater, subject to the approval of the President.

Eligibility to Represent the University

No student organization can be formed without the consent of the committee. Without such consent and approval no organization

which in any way represents the University before the public, or which purports to be a University organization or organization of University students, may use the name of the University in connection with its own name, or in connection with its members as students.

Only students in good standing are eligible to represent the University in extra-curricular contests. No student while on probation may represent the University in such events as athletic contests, glee club concerts, dramatic performances, and debates.

Discipline

In the government of the University, the President and faculty rely chiefly upon the sense of responsibility of the students. The student who pursues his studies diligently, attends classes regularly, lives honorably, and maintains good behavior, meets this responsibility. In the interest of the general welfare of the University, those who fail to maintain these standards are eliminated. Students are under the direct supervision of the University only when on the campus, but they are responsible to the University for their conduct wherever they may be.

RELIGIOUS WORK COUNCIL

The religious work carried on at the University is supervised by the Religious Work Council, of which Dr. Pearson is chairman. The Council is composed of the student pastors, and representatives of all the religious clubs, of the faculty, and of the student body as a whole.

Religious speakers are obtained for special occasions. Every student is given the opportunity to worship on the campus, either in a service embodying all faiths, or in a club of his own denomination.

The Council works in close co-operation with the Maryland Christian Association and the Committee on Non-Resident Lecturers.

STUDENT PASTORS

Most of the major religious denominations at Maryland have Student Pastors who minister especially to the students of their denomination. The Student Pastors have an office in the Student Center, where each has his office hours during the week. The Baptist, Episcopalian, Presbyterian, and Lutheran students have denominational clubs which meet regularly during the year.

PARKING REGULATIONS

The Automobile Parking Regulations are for the purpose of protecting the appearance of our campus as well as for personal safety and convenience. These regulations, which have been in operation for several years, have been found very beneficial to our campus. The following are the regulations proposed by our Campus Parking Committee and approved by the Administration:

Automobiles MUST NOT be parked or STOPPED on any of the campus roads except to take on or discharge passengers. **Hanging on cars is not permitted. Fast driving and rounding curves at a speed greater than fifteen (15) miles per hour is prohibited. Blowing horns in front of buildings disturbs class activities and is prohibited at all times. Driving off campus roads on grass is positively forbidden.** Students must not park in Visitors' Spaces located near the Dining Hall and in front of the Agriculture Building.

University Lane has been made a through traffic boulevard and parking parallel therewith has been discontinued.

Spaces to be used by students for the parking of automobiles are:

Women: Parking area north of University Lane and adjacent to the walk leading to Gerneaux Hall, except spaces 200 to 240 inclusive and 272 to 310 inclusive. **Men students are not permitted to park in this area.**

Men: Parking area near Calvert and Silvester Halls, except spaces 482 to 499 inclusive. Parking area between the Gymnasium and Silvester Hall. Parking area at Gymnasium, except spaces marked, "Reserved".

Officers of the Maryland State Police have been detailed to assist in maintaining these

regulations, which are essential for maintenance of property, convenience, and personal safety. **ANY STUDENT WHO FAILS TO OBSERVE THESE REGULATIONS, MAY BE DEPRIVED OF THE USE OF HIS CAR AND DRIVING PRIVILEGES ON THE CAMPUS. CONTINUED VIOLATION MAY MEAN SUSPENSION FROM THE UNIVERSITY.**

The RESPONSIBILITY FOR PARKED AUTOMOBILES RESTS WITH THE CAR OWNER. For further information inquire at the Office of the Superintendent of Buildings and Grounds, Room 18, basement of Agriculture Building.

WARREN E. TYDINGS

GREETINGS TO THE INCOMING FRESHMEN

On behalf of the student body of this, your University, let me extend to you a hearty welcome. You are to be congratulated upon your decision to attend college and we feel, especially so, in your particular choice.

Three months ago you were feted by your respective schools at Commencement Exercises. Today you have arrived at the threshold of the word commencement in its true sense.

The University of Maryland is democratic in its social life, a teeming place of knowledge, and respected by other schools for its policy in athletics. It is your opportunity to profit by these individualistic traits, and your job to help continue this progress.

The student body is looking towards you. They expect three things of you, the same three you expect of yourself: namely, friendly relationships with all, a spirited support of athletics and student affairs, and success scholastically.

I want everyone of you to feel free to ask my help in any of your endeavors.

Sincerely,

WARREN E. TYDINGS, President,
The Student Government Association.

STUDENT GOVERNMENT ASSOCIATION

Student government at Maryland has attained unusual heights in efficiency and organization during the past year with the University administration adopting a broad and elastic policy in permitting students to practice self-government as far as is practicable. Final jurisdiction is, of course, vested in the President of the University.

The presidency of the Student Government Association is the highest position open to an undergraduate and one of utmost responsibility. The Student Government has as component parts, a men's unit and a women's unit, each to consider its respective problems and the Executive Council, composed of a cross section of student leaders. The Executive Council has final jurisdiction as far as the student governing is concerned. The Student Relations Committee, a faculty body appointed by the President of the University, which acting for him approves all major actions and formations of student organizations.

The Vice-President of the Student Government Association is Chairman of the Executive Council, which enables the President of the Association to act as a voting member and thus more adequately facilitate legislation and maintain the Parliamentary procedure of the sessions.

Meetings of these organizations are held twice each month or on special occasions at the direction of the President of the S. G. A. All meetings are closed to the public.

All student activities under the Association are financed by one of the most complete subsidization plans in university or college circles in the country. The activities fee of $10 paid by each student upon entrance to the University is apportioned between publications, dramatics, debate, opera, and the host of similar functions on a percentage basis, with the result that each undergraduate realizes returns

on his investment far in excess of the original fee. Thus, admittance to all dramatic and operatic performances is free, all publications are distributed, without charge, to those who have paid the fee, and similar benefits, which might otherwise occasion financial difficulties, are obtained without hardship to the student.

HANDLING OF FINANCES OF STUDENT ORGANIZATIONS

In the spring of 1930, the Student Government Association passed a resolution to charge each student a general activities fee of ten dollars ($10.00) per year, which fee included payment of his class dues and subscription to The Diamondback, The Old Line, and The Reveille. In 1931 the Opera Club, the Student Band, and the Footlight Club were added to this group, and each student receives in return tickets to two performances of the Footlight Club and one performance of the Opera Club. Debate was also added in 1933.

The money received is prorated among the aforementioned organizations, according to a percentage schedule arranged by the Student Government Association. The accounts of these organizations and all of the general student organizations, including The Rossbourg Club, Scabbard and Blade, and the Maryland Christian Association, are grouped in one account and are under the supervision of a Faculty Adviser. At the beginning of each school year, each organization submits a budget for approval, and then writes an order for each expenditure to be made. This is checked against the budget items and, if sufficient funds are available, is approved by the Faculty Adviser. Various firms with which the students deal have been notified that the Student Government Association is not responsible for any contracted debts for which an order has not been issued. Any student or individual contracting debts without an order is personally responsible.

Records, which are always open for inspection, are kept at the Central Office for each organization. Besides, each organization treasurer keeps his own set of books, which serves as a check upon the Central Office. The bills are vouchered, and the accounts are audited

by the State Auditor at the end of the year. In the first issue of The Diamondback of the school year, a full statement is issued of all accounts handled by the Central Office during the previous year. A check, which eliminates a great deal of misunderstanding, is also maintained for the students upon the sale of tickets for such functions as those held by Footlight Club, the Opera Club, and the Rossbourg Club.

ASSISTANT IN STUDENT ACTIVITIES

Hoping to assist the various campus organizations in coordinating their efforts and to aid in the continuity of their work from year to year, the Administration last year created the office of Assistant in Student Activities. Ralph I. Williams, who had just graduated the previous June, and who during his senior year was President of the Student Government Association, was selected to take charge of this new activity.

Under Williams' tutlage, and through the splendid cooperation rendered by the student body, this new organization has proven to be an important cog in all activities of student affairs. Organizations now use this office as their central unit, and it is here that records are kept of all campus groups. Debate schedules as well as the disbursement of Debate funds are now arranged in this office. During the middle of the year the job of compiling a complete personnel file of the entire student body was successfully undertaken by, and will continue to be a regular task of this office.

A new responsibility will be assumed this fall when Williams will begin the task of aiding students to find employment, other than in the University's Departments.

The office of Student Activities is of, by, and for the students and it is Williams' hope that all students, particularly the Freshmen, will not hesitate to ask his aid in any of their difficulties.

STUDENT CENTER

The building occupied at present by the Maryland Christian Association and student publications is a forerunner of the Student Union Building which is to be erected before the University building program is many more years old.

The east wing of the Center is occupied by student publications—The Diamondback, The

Reveille, and The Old Line. The entrance to these offices faces Calvert Hall

Offices of Warren E. Tydings, President of the Student Government Association; and of Ralph Williams, Assistant in Student Activities, as well as that of the student pastors and Maryland Christian Association, are located in the center of the building. Access to these rooms may be had through the entrance in the main wing, facing the Library.

Reading and recreation rooms adjoin the offices and are available to all students. The current magazines and books on hand there will assist day students in whiling away a long lunch hour or a leisure moment.

Freshmen, especially, are invited to utilize the facilities offered in the Student Center and to confer on their problems with Mr. Williams.

COMMITTEE ON STUDENT LIFE

A new advisory organization designed to assist and advise student leaders in the conduct of the many undergraduate activities has been formed by President Pearson under the title of the Committee on Student Life. This committee, which is composed of fourteen members of the faculty and Staff of the University, will function as a guiding influence for the student body and endeavor to give to its leaders the benefits of mature reasoning.

As Assistant in Student Activities, Ralph Williams, former President of the Student Government Association here, will carry out the policies suggested by the committee and bring them directly to the undergraduates, with whom he will be in constant contact.

Members of the committee are as follows: Geary Eppley, chairman; S. S. Steinberg, Charles E. White, LeRoy Mackert, Major Alvan C. Gillem, Dr. Charles B. Hale, Dr. Walter H. E. Jaeger, Ray W. Carpenter, Harold F. Cotterman, William H. Hottel, George F. Pollock, Mrs. Claribel Welsh, Dr. Susan E. Harman, Miss Helen Wilcox, Miss Frances Maish.

STUDENT PUBLICATIONS

Three student-edited and student-written publications—The Diamondback, weekly newspaper. The Reveille, yearbook, and The Old Line, bi-monthly comic magazine—are produced by University of Maryland undergraduates as official organs of the Student Government Association.

The staffs of each of these publications are composed of students from freshman, sophomore, junior and senior classes, with the edi-

tors chosen, except in unusual circumstances, from members of the latter group. These editors are chosen by popular election each spring from a group of candidates selected by the outgoing editors and the Faculty Advisor of Student Publications. Eligibility for positions is determined by length of service, ability, and freshman and sophomore staff records.

Shortly after registration, a meeting of candidates for Student Publications is held under the supervision of the editors and business managers, and questionnaires are issued to determine the type of publication and department in which the applicants wish to work. No previous experience is necessary to become members of a publications staff.

Scholastic credit has been granted by the University for work on student publications in conjunction with a special course in practical journalism. Freshmen become eligible for the course only after a year's work on one of the staffs.

The Diamondback, weekly newspaper, is published every Monday and contains complete University news and official bulletins with which every student should be familiar. Opportunities are afforded undergraduates to secure much valuable experience in advertising and editorial lines. The Reveille is published in June and contains a complete record of the University work for the year, together with summaries of spring sports results—a feature almost unique in college annuals. The Old Line appears six times each year, with prospects bright for increasing the number of issues until the magazine is established on a monthly basis.

Each undergraduate at Maryland is required to pay a blanket sum of $10.00 on the day of registration. This provides for a year's subscription to the "Diamondback," the weekly published every Monday during the school year; year's subscription to the "Old Line,"

bi-monthly, published six times during the school year, and the "Reveille," annual, which is issued about June 1st.

Major officers of the publications for the year 1934-35 are:

DRAMATICS

Hampered somewhat by mediocre staging facilities, the Footlight Club, principal organization of campus thespians, has produced a number of truly noteworthy plays during the past five years.

Under the tutelage of Dr. Charles B. Hale, talented coach, the Footlighters have staged successfully an average of two plays a year, often presenting a third performance of one-

act plays. Among the most recent vehicles were "The Royal Family," "Holiday," "The Dover Road," "Outward Bound," "The Queen's Husband," "Monsieur Beaucarie," and "Berkley Square." The sole Shakespearean effort of the Club, "Midsummer Night's Dream," was presented by request before the Shakespearean Society of Washington following a successful run on the campus.

OPERA CLUB

The Maryland Opera Club was founded in 1924, and since then has been noted for its excellent annual presentations and for the capable work of its members.

In 1934, instead of the customary Gilbert Sullivan operas, it produced "Erminie; or the Two Thieves" by E. Jakobouski. This opera has a French provincial setting and was one of the most entertaining and comical ever presented by the club, as well as one of the most elaborate in so far as costumes, setting, and the merit of the players was concerned.

This is the tenth comic opera to be successfully presented by the Club. These presentations have naturally entailed a great deal of effort, and they have only been possible because of the cooperation of Professor B. Louis Goodyear, who has tirelessly and successfully coached the singers and the members of the Club. However, the club has always been enthusiastic about its productions, which always have been a worthy tribute to its efforts.

DEBATE

The administration for a number of years has supported intercollegiate debating, recognizing this student activity as one of the most important activities from a cultural, educational, and practical training standpoint.

Last year "The Calvert Debate Club" was formed to better centralize the preparation and presentation of the debates on the regular

schedule, and to discuss current topics of the day. Try-outs are held twice a year, during the first month of each semester; all members of debate teams are selected from this club.

Professor C. S. Richardson, Head of the Public Speaking Department, is chairman of the faculty committee which works in cooperation with the club as an advisory body to it. Schedules are arranged through the Student Activities Office. Besides debates on the campus and at nearby high schools, the men's and women's teams will make several trips to colleges throughout the south and north.

OPEN MEETINGS

During the past spring The Democratic Club conducted a series of meetings which brought to the campus the outstanding men in Maryland politics and arranged so the students could become acquainted with several men prominent in the national affairs of our Country.

One afternoon last April Secretary of Agriculture Henry A. Wallace entertained thirty members of the Club in his office in Washington. On the same evening the Honorable Bernard J. Flynn, United States District Attorney for Maryland addressed an open meeting of the Club. Other speakers who addressed the Club last season were: T. Barton Harrington, Speaker of the Maryland House of Delegates; Sumner Welles, Assistant Secretary of State and Former Ambassador to Cuba; Herbert R. O'Conor, States' Attorney for Baltimore City; Howard W. Jackson and Dr. Charles H. Conley, candidates for the Democratic nomination for Governor; H. Webster Smith, Harry W. Nice and Harry Phoebus, candidates for the Republican nomination for Governor; and, Raymond A. Bailey, Chairman of the Young Independent Democrats of Maryland. The meetings of the organization are open to the public and all students are invited to attend.

MARYLAND CHRISTIAN ASSOCIATION

The Maryland Christian Association at the University of Maryland is a voluntary fellowship of men and women, both student and faculty, who unite in the endeavor to find the highest values in living and to make them effective in daily life. It was formed in 1930 and its object is to achieve closer fellowship and co-operation, and to promote an all-campus program to meet student and faculty needs.

Each year the cabinet for men and women works out its own statement of purpose and its goals for the year, making a direct effort to meet the specific needs of the campus. Some of the features of its program are Freshman Commissions, Freshman Week Program, Student Sunday, Freshman Discussion Groups, Speakers, Vesper Services, Conferences, Fireside Forums, and Social Events.

Membership

Every student and faculty member who is in sympathy with the purpose of the Association is invited to join, and to unite with the other members in the search for individual and corporate life at its best. The voting membership consists of those who sign the statement of purpose, thus voluntarily declaring their desire and intention of seeking, in close co-operation with all other members, the best possible life. For many in this fellowship the way is most clearly pointed by the life of Jesus.

The affiliate membership is composed of those who take part in any way in the activities of the association. The program is designed to include and to serve all persons in the campus community, and all are invited to participate in such phases of it as they desire.

Student Control

The plans and program are determined and promoted by the two Cabinets, with the ad-

vice and aid of the Advisory Board. Meetings are held monthly.

In all of their work, the Cabinets and Council have the advice and help of the faculty and student pastors.

TRADITIONS

With physical hazing definitely outlawed, the burden of maintaining the traditions of the University rests entirely with the Freshman Class. Many of the customs followed in years past have been discarded, but those that remain are believed the best to which first-year students have heretofore been subjected by force.

Perhaps the one outstanding Maryland tradition, and the one to which most attention has been drawn, is known as the "hello" habit—the habit of speaking cheerfully and respectfully to upperclassmen and visitors to the campus. You as freshmen will be favorably impressed by the friendly attitude which prevails among the undergraduates generally, and the spirit engendered by years of practice will go far toward making you feel "one of the gang" rather than a stranger. This tradition of friendliness is one which should be fostered at all costs.

Regulations governing the organization of the freshman class, together with a list of the traditions which have been continued and which must be observed by all first-year students, will be found in the By-Laws of the Student Government Association Constitution. It is advisable that you familiarize yourself with the contents of this Article immediately.

Each year a Sophomore-Freshman Struggle is held on the lower campus to determine whether or not freshmen will continue to wear caps; the numerals of the winning class are inscribed on the base of the Terrapin Memorial in front of the Ritchie Coliseum, a bronze replica of a diamondback terrapin which was presented to the University last year as a joint gift of the Class of 1933 and the Student Government Association.

WOMEN'S TRADITIONS

It is the wish of the women of the University of Maryland to help their incoming classmates to become acclimated to college life. For this purpose each one of the new students is adopted by an upperclassman as a "little sister." When she arrives on the campus, she is greeted by her "big sister," who is ready to advise her about "the ropes." "Little sisters" are assigned by the Y. W. C. A.

Alpha Lambda Delta is the only freshman women's honor fraternity on the campus. It was founded at the University of Illinois in 1924, and the chapter at Maryland was established in 1932. Freshmen women with an average of 3.5 or over are eligible.

"Rabbit rules" are supposed to have been abolished, but there are still certain "rules" that the Freshmen have to obey that have been made by the Sophomore Class.

Women who excel in scholarship, leadership, citizenship and Christian character are eligible for the Women's Senior Honor Society in their Senior Year. On Baccalaureate Sunday, the outgoing members select the new organization from the Junior Class.

The Junior Class holds May Day each year in honor of the Senior Class, out of which they select by ballot the Queen of the May and her four maids.

The Women's League of the Student Government Association sends each year a delegate to the national convention.

The Women's Executive Council holds an annual picnic at the end of the year.

To receive an award for athletics, the girl must be an active member of the Women's Athletic Association.

ADVICE TO FRESHMEN

Probably the best advice that we can give to you as members of the Class of '38 is to tell you that it is up to you to find out what the University is going to mean to you, and what part you, collectively and individually, are going to play in the development of the University.

However, the following suggestions may help you in your own orientation:

Do not forget that you are a Marylander now. Your high school records or trophies will not build your reputation here.

Learn all of the school songs and yells. If the school spirit is not as good as you would like, remember that it never will be unless you keep up your enthusiasm for the next four years.

Wear your Frosh Caps and name tags. They will actually be an aid in cementing your class together and in introducing you to the student body.

Win the Freshman-Sophomore Contest; get your numerals on the Terrapin Memorial.

Start to work on your studies as soon as the gun goes off. The easiest subjects usually prove the hardest at examination time.

Divide your time wisely between studies, athletics, and extra-curricular activities. Too much time spent on any one will prove disastrous.

Attend all meetings of your class.

Be sure to speak to everyone you meet on the campus. The Class of '37 was the first class that did not do its share in maintaining this tradition. Show them up!

Do not crib. Even if you are lucky enough not to be expelled from school, the value of your education immediately ceases.

CONCERNING FRATERNITIES

The aim and dream of many a freshman is to attain membership in a great collegiate fraternity. To many, this dream means luxury of living, a sense of superiority, a good time among "brothers," and a shining pin to show the home folks.

A fraternity or sorority should mean much more. It should mean closer companionship with other men or women with similar ideals who are pledged to raise the moral, educational, and social standards of the group.

In a few weeks, many will have the opportunity to join one of these lodges. The opportunities for you to benefit from these affiliations are numerous, but please keep in mind:

That your decision will probably have more effect on your future life than any you have ever made in the past.

That you are not an outcast if you do not receive the bid you wish, or any bid—you may be too intelligent instead of too backward to interest that particular organization.

That many of the potentially fine men have been completely buried in their fraternities.

That men in other fraternities may be worth cultivating or keeping as intimate friends. Some of your best friends in the Freshman Class will not be in your fraternity. Do not lose them.

That you are entitled to know the financial set-up of any fraternity that rushes you.

That it is neither any credit to you nor to a fraternity to obligate yourself before the official pledge day.

And that your success or failure does not rely on whether you make a fraternity or not, but on the initiative and perseverence you show in either situation. Some men are actually made by fraternal affiliation; others submerged or ruined. Choose your course carefully, remembering that after pledge day your battle to prove your real worth is only starting.

The following motion was made and passed unanimously:

"Because it seems that formal notification of the action regarding fraternity and sorority pledging and initiation was not given to fraternities and sororities, the Senate will postpone the operation of the new rules* for one year, and in the meantime will consider any joint recommendation from the Student Affairs Committee, the Interfraternity Council, and the Panhellenic Council, submitted on or before January 1, 1934.

"The Senate hereby directs that a copy of this action be sent by the Secretary to all fraternities and sororities, both national and local, to be posted on their bulletin boards; that it be posted on the bulletin boards of the University, and published in the Diamondback."

* The regulation above referred to reads as follows: "There shall be no definite rushing season and students may be pledged at any time; but no student shall be initiated until he or she shall have passed one full semester's work without condition or failure."

THE ROSSBOURG CLUB

The Rossbourg Club, founded in 1891, is Maryland's oldest and most prominent social organization. Its primary function is to give a number of informal dances, free to members. During the past few years it has shown very rapid growth, due principally to the fact that it has given the most successful dances Maryland has ever known.

INTERCOLLEGIATE SPORTS AT THE UNIVERSITY OF MARYLAND

The University of Maryland's position in intercollegiate athletics is unique. It has a reputation for clean athletics, yet has good teams. It has met opponents from the Mississippi to the Atlantic and from Harvard to the University of Florida, yet has no "break" or quarrel with any other institution. It is on good terms with all. To win is not the chief aim, but to develop men. It is the policy of the University to stress the educational values in its sports.

Yet, notwithstanding this attitude, which precludes the possibility of overemphasis of its sports, the University has had some notable achievements in the various fields of competition. For instance, in the last few years, in football, it has defeated Yale twice, defeated Syracuse, Pennsylvania, Navy, Washington and Lee, Virginia, V. P. I. and V. M. I., North Carolina and others of its opponents.

In baseball it has won victories at one time or another over practically every other big school in the East and South. Its basketball team has not only defeated Pennsylvania, Princeton, Lafayette, Navy, and others, but three years ago won the Southern Conference championship.

The lacrosse team has been consistently among the two or three strongest in the United States. In boxing, track athletics, and rifle shooting it also has enjoyed its share of success. In track, for instance, the mile relay team in one season defeated Harvard, Yale, Pennsylvania, Dartmouth, Columbia, Penn State and last year won the Penn Relays.

Maryland always plays difficult schedules in all sports, and boys who enter the University are assured of the opportunity to try for teams which will be in competition with the highest type of opponents.

This coming fall, the football team not only meets Georgetown and many of the larger schools in this immediate section, but also will take a trip to Bloomington, Ind., to play Indiana, and will meet Florida at Baltimore.

In basketball, Ohio State and the University of Indiana are to be played at College Park, while other games will be played with North Carolina, Virginia, Duke, Navy and other schools of the type of these.

The boxing team has matches listed, among others, with Penn State, Western Maryland, Washington and Lee, V. M. I. and Duke University. It is also scheduled to make a trip to Charlottesville to meet Virginia.

The lacrosse team, besides its annual games with Navy and Hopkins, will play Syracuse and Penn State, both being scheduled at College Park.

The baseball team will have among its opponents Cornell, Virginia, Georgetown, Michigan and practically all of the other schools in this section that maintain teams in this sport.

A dual meet with Navy and the Southern Conference Championships will be features of the track schedule.

In addition to its general program, the University schedules in the spring a Field Day to which it invites all of the high schools and prep schools in the State and the surrounding States to send athletes. About 500 high school athletes took part in this field day meet last spring. Next year the University teams, in the Spring Field Day program, will meet teams from neighboring colleges in lacrosse, baseball and tennis.

Something of the opportunities for participation in intercollegiate athletics at the University of Maryland is shown in the fact that last year approximately 300 students were members of the various squads.

INTRAMURAL ATHLETICS

With Professor Charles Leroy Mackert as the director, the Physical Education Department at Maryland has revealed a real point of efficiency and is rapidly growing, and Mackert, who earned his B. A. and M. A. at this university, has completed work for his Ph. D. in Physical Education at Columbia University.

Competition in intramurals is fostered in track, boxing, touch football, basketball, tennis, swimming, soccer, volley ball, ping pong, wrestling and horse shoe pitching, and approximately 1000 students participated in the various activities during the 1933-34 term.

The Old Liners also figured prominently in the Extramural Athletic Association League composed of colleges in the District of Columbia and Maryland, which Mackert was a prime mover in organizing and leading performers from eight institutions met in a number of its pastimes.

Managers and aides in each sport are selected from among the students of physical education and a banquet is held in their honor at the close of the school year.

WOMEN'S ATHLETIC ASSOCIATION

The Women's Athletic Association have adopted a point system which was started last year. Under this new point system a coed must be an active member of the Women's Athletic Association to be eligible to receive any award. A freshman can obtain her numerals, when she has earned thirty-five points. After her freshman year, any member earning fifty points may receive her letter. A letter winner earning fifty additional points may get a blazer. Such a coed, making another fifty points, is awarded a small "M" by the "M" Club. Before either of the last two awards are given, a candidate must be passed upon by the members of the "M" Club and the Executive Council of the Women's Athletic Association.

Hockey, basketball, volleyball, baseball and soccer are the major sports. Two extra points are earned by each member of a winning team.

Exams for the managers are given two weeks before the sport begins. One women can be manager or assistant manager of only two sports. For both positions ten points are given. An extra five points is given if the coed participates in the sport.

For the first time in the history of the Club has it sent a delegate to the Hockey camp. This is hoped to be carried on in the future.

Officers of the Association this year are:

President.....Evelyn Neal
Secretary.....Jean Cowie
Treasurer.....Routh Hickey

SONGS AND YELLS

ALMA MATER

(Maryland! My Maryland!)

Thy sons and daughters throng thy door,
Maryland! My Maryland!
Maryland! oh Maryland!
Their hearts and hopes they bring to thee,
And place them in thy custody,
Proud hearts that pledge their love for thee:—
They come from mountain, farm and shore
Maryland University!

Go forth, brave youth, throughout the state:
Maryland! My Maryland!
And by your actions, show her great:
Maryland! Our Maryland!
Thy Alma Mater's name and fame,
Oh keep alive her holy flame,
Until all hearts as one exclaim,
Maryland! My Maryland!

Cheer, three times cheer, and one cheer more
For Maryland! Dear Maryland!
Send forth that cry from hill to shore:—
Maryland University!
Fair Mother of our brightest dreams,
Blest giver of life's precious things,
To thee each heart its service brings:—
Maryland! My Maryland!

MY MARYLAND

The despot's heel is on thy shore,
Maryland! My Maryland!
His torch is at thy temple door,
Maryland! My Maryland!
Avenge the patriotic gore,
That flecked the streets of Baltimore,
And be the battle queen of yore,
Maryland! My Maryland!

Thou wilt not cower in the dust,
Maryland! My Maryland!
Thy gleaming sword shall never rust,
Maryland! My Maryland!
Remember Carroll's sacred trust,
Remember Howard's war-like thrust,
And all the slumb'rers with the just,
Maryland! My Maryland!

Maryland

In the very heart of Maryland,
In the heart of every Maryland man,
There's a spirit so endearing
It will win your heart and hand.
For she doth hold sway,
She will win the day,
And her glorious men will ever win the fray.

Chorus

Then it's Hurrah! Hurrah! for Maryland.
Then's it Hurrah! Hurrah for U. of M.
With her banners ever streaming high,
She will always win or die.
Never forget the glories of the past,
Carry on triumphant to the last,
For we love, we love Old Maryland,
Hurrah! Hurrah! Hurrah!

U. of M.

(Tune, Caisson Song)

U. of M., U. of M.,
Keep the ball away from them,
Keep that pigskin a-rolling along!
Up the field, down the field,
Not an inch of ground we'll yield,
Keep that pigskin a-rolling along!
Then it's Whiff! Wham! Whack!
Hear that Maryland quarterback
Shout out his signals loud and strong!
Where'er you go, you will always know
That the pigskin is rolling along,
(Shouted) Maryland! Maryland!
Keep that pigskin a-rolling along!

Sons of Maryland

(Tune, Sons of America)

Sons of the Gold,
Sons of the Black,
Fight, No spirit lack.
Your Alma Mater
Needs you today.
To help win the fray.
Shoulder to shoulder,
Back to back,
We'll fight together
For the Gold and Black.
Fair Sons and Daughters
Of Maryland,
Upon you all vict'ries stand.

Chorus

Sons of Maryland,
Old Maryland needs you!
Stand by your colors, boys,
And to them e'er be true!
Fight for old Maryland,
Old Liners! Stand.
Defenders of the Black and Gold
Throughout this land.
Team! Team! Team!

Victory Song

Down on the field they're fighting,
Pride of the Black and Gold,
Men, every one of them,
Warriors of U. of M.
Our honor they'll uphold,
On toward the goal they're marching.
It will not take them long,
So, let's give a cheer,
For the men we hold dear,
And sing to them our Victory Song.

Chorus

Maryland, we're all behind you;
Wave high the Black and Gold,
For there is nothing half so glorious
As to see our men victorious;
We's got the team, boys,
We've got the steam, boys,
So keep on fighting, don't give in!
(Shout) M-A-R-Y-L-A-N-D!
(Sing) Maryland will win!

All Hail! to Our Maryland

Let us sing to Alma Mater
University of Maryland,
Let us deck her o'er with glory,
With triumph and honor, hand in hand:

University of Maryland,
The college so dear to our hearts,
We'll cheer for the teams which are all so great,
Its praises ring, from State to State;
Along the well-worn trail of victory
Maryland will follow on and on,
And the colors in the lead,
Will be Black and Gold, indeed,
All Hail! to Our Maryland.
